(1) Maps of several colors shall be appraised as those of one color, but they shall be liable to a duty of 2 pesos per kiloz. net. (Law of January 23, 1858.)

2) By decree of May 6, 1911, the following articles of agricultural machinery and parts for their repair shall, on importation, be exempted from import duties and the additional *patente* for the construction of the port of Monte Video: Steel ploughs with or without mortars, seed drills, harrows and rakes, mowers, reapers, harvesters, three-horse maize-bellers, haling presses for fodder, grain crushers and scowers, crushing mills, chaff cutters, mowers for use with the agricultural machines specified above. In accordance with the Law of Jan. 11, 1912, duty-free admission is also accorded to machines and apparatus for use in apiculture, silviculture, of *cultura*, fruit culture, and to mechanical shears.

§ Palleyes imported into the Republic shall be subject to the general duty of 81 % and shall not be admitted as accessories of machines at 6 % except in cases where they are imported fixed to machines. (Decree of September 30, 1911.)

† Naptha for agricultural purposes is exempt from duty. (Decree of May 6, 1911.)

(1) Law dated June 11, 1901, provides that: "Colored paper generally (except chrome paper specially employed for book printing), folded or not, whatever be its size, brown paper, packing paper, straw paper and bag and other like papers made for wrapping or packing, are to pay a specific duty of \$0.47 per kilogramme."

(2) Pulp of vegetable fibres destined to the manufacture of fine paper shall be admitted free of duty. (Law of March 9, 1896.)

(3) Paper of all kinds, whether or not printed, shall be admitted free of duty.

(4) Colored paper, imported unfolded and measuring more than 82 by 62 centimetres, is considered as printing paper.

(5) This duty refers only to books in luxurious bindings or to book-printing in foreign countries for authors or publishers established in Uruguay. All others are admitted free.

(1) Chairs, not upholstered shall be appraised, according to kind, with a reduction of 20%.

Chairs with woollen seats in place of the cane, American style, shall be appraised as carved chairs, and chairs covered in white shall be appraised with an increase of 50 pesos per dozen. Should the latter be covered with woollen tissue, their evaluation shall be increased by 60 pesos per dozen. This increase shall be of 90 pesos when the chairs are covered with silk and woollen tissue or with morocco, and when covered with a pure silk tissue it shall be of 100 pesos.

Chairs of bent wood, with cane backs exceeding 1.05 metres in height, shall be increased by 20%.

(2) Easy chairs with arms, similar to the respective kind of chairs, shall be appraised as the latter, with an increase of 60%, and arm chairs, not upholstered, shall, according to kind, enjoy a reduction of 20%, when not specially mentioned in that condition. Easy chairs covered in white shall be appraised with an increase of 1 peso each. This increase shall be at the rate of 10 pesos for those covered with tissues of wool or of wool and cotton, of 11 pesos for those covered with tissues of wool and silk or with morocco leather, and of 14 pesos for those covered with silk.

(3) The evaluation for folding easy chairs shall, according to kind, be increased by 20%.

Notes. 1.—Furniture imitating any enumerated article, with the exception of furniture of painted pine, shall be appraised at the same rate as the furniture imitated.

2.—Furniture with mouldings and plain turned work shall be considered as plain furniture.

† There are no items numbered from 2900 to 2999.

(1) Sofas, not upholstered, shall, according to kind, enjoy a reduction of 20% provided that they be not specially mentioned in that condition. All sofas covered in white shall, according to kind, be appraised with an increase of 20 pesos each. The evaluation of sofas covered with woollen tissue shall, according to kind, be increased by 25 pesos each. This increase shall be at the rate of 30 pesos each for those covered with tissues of wool and silk or with morocco leather, and of 40 pesos each for those covered with silk tissue.

(2) When imported uncovered, these stools shall, according to kind, enjoy a reduction of 20%.

- 3.—Furniture with heavy moldings and carving of jacaranda shall be appraised, according to kind, with an increase of 10%.
- 4.—Ebony furniture shall be appraised with an increase of 20%.
- 5.—Furniture, the interior of which, even in the drawers, is of pine or poplar, clearly visible, as well as furniture with carving of composition, shall be appraised with a reduction of 10%.
- 6.—Furniture, although not fitted together, imported neither waxed, varnished nor painted, shall enjoy a reduction of 20% on the appraisement of the same article finished but not fitted together.
- 7.—Slightly carved furniture shall be appraised with an increase of 10%. This increase shall be 20% if adorned with medium carving, and heavily carved furniture shall be dutiable according to the value assigned thereto by the Customs.

Note.—Bands and borders ("guardias") shall, according to their width, be appraised as the component tissue.

- (1) Trimmings for upholsterers always contain cotton.
- (2) The size of the loops is determined by the length of the tassels.
- (3) Tassels trimmed with rosettes shall be appraised with an increase of 20%.
- (4) Tassels with fringes of pure wool are considered as woollen tassels.
- (5) Are considered as tassels of wool those with fringes partly of silk and partly of wool.
- (6) Tassels with fringes of pure silk are considered as tassels of silk.

| In accordance with the Regulations published in the "Diario Oficial" of July 15, 1910, the tax is to be paid by affixing a stamp of the required value to each bottle, flask, or packet of the articles subject to the tax.   |   |                     |                    |                     | " dried .....   |   |                     |                    |                     |
| Importers will be furnished with stamps by the Customs Administration, and the charge for the same will be added to and paid at the same time as the Customs duty. The stamps are to be affixed to the bottles or packets in such a manner that the latter cannot be opened without tearing the stamps. |   |                     |                    |                     | " horse, salted .....   |   |                     |                    |                     |

## LAW RELATING TO MINING MACHINERY AND MATERIALS.

By the Decree of April 30, 1904, the importation of machinery, implements, and materials for the prospecting and exploitation of mines and the installation of metallurgical works is free of duty for a period of 10 years.

## CONSUMPTION TAXES.

## LAW OF JULY 14, 1900, ESTABLISHING NEW INTERNAL CONSUMPTION TAXES.

Art. 1.—From and after the date of promulgation of this Law, the under-mentioned goods shall be subject to the following internal taxes:

|   |  |         |
|---|--|---------|
| a. Imported liquors in general.....   | per kilo.                                  | \$ 0.01 |
| A discount of 4 % is allowed on raw sugar intended for refining, for loss in the operation.....   |  |         |
| b. Imported common wines of an alcoholic strength exceeding 1° centesimal, ascertained by distillation at the normal temperature of 15° centigrade—for each half degree of excess, or fraction thereof, up to 1° inclusive.....                       | litre                                      | 0.005   |
| Do., Do., above 1° centesimal.....  | per deg. or fraction thereof and per litre | 0.01    |
| c. Common wines, with over 50 % of dry extract, including the following sugar, for every five grammes, or fraction thereof, contained in each litre.....  |  | 0.01    |
| d. The alcoholic tolerance for native wines is limited to 15° centesimal, ascertained by distillation at the normal temperature of 15° centigrade, and all excess of alcohol shall pay the tax established by this Law for native alcohol, viz.,..... | per litre or fraction thereof              | 0.20    |
| e. Spirits ("aguardientes") manufactured in the country, irrespective of strength.....  | litre                                      | 0.20    |
| This tax is to apply to all quantities issued by the factories as well as to their stocks existing up to the date of promulgation of this Law; after which it shall apply to all quantities manufactured in such factories.....                       |  |         |
| f. Foreign spirits.....   | litre                                      | 0.044   |
| g. Foreign liquors, bitters, &c., vermouth, cognac, and other alcoholic drinks, specified in Art. 2 of the Law of 21st August, 1937.....  | litre or bottle of from 51 centilitre.     | 0.02    |
| h. Spirits obtained from the distillation of the products or residuum of grapes and intended exclusively for heading wines.....   |  | free.   |
| Spirits obtained as aforesaid and intended for sale are liable to the tax.....  |  |         |

In both cases, these spirits must be rectified and conform to the conditions as regards purity, stipulated in Art. 7 of this Law.

Art. 4.—The denaturalisation of spirits intended for heating, lighting, industrial or domestic purposes shall be the subject of a special Law providing for the process and matter to be employed in denaturalising, and for the measures of guarantee to be adopted so as to prevent such spirits resuming their original character, and fixing amount of internal tax to be charged upon such spirits having regard to their strength, and matter employed for denaturalising them.

Art. 6.—Henceforth no distilleries may be installed of less productive capacity than 1,000 litres daily of alcohol, calculated in 100° centesimal; nor may apparatus for the distilling and rectifying of alcohols be imported, constructed, or installed of less capacity than that stated, except according to the conditions determined by the Executive in regulating this Law.

Art. 7.—All alcohol containing over 2 1000 of impurity ascertained by Rose's method, shall be declared unfit for food and excluded from consumption. Exported alcohols and spirits shall be analysed by the Customs Laboratory, and those of home manufacture by the Municipal Analytical Office, for which purpose importers or manufacturers must register their trade-marks. Any infraction of this will be punished by confiscation of the impure article and the penalties of Art. 167 of the Penal Code.

Art. 8.—The Decrees of 12th September, 1885, and 26th February, 1888, respecting quality of wines, remain in full force.

Art. 9.—Montevideo is declared the sole port for the introduction of foreign wines, spirits, and other alcoholic drinks, but the Executive is empowered to open other ports.

Art. 10.—Payment of internal taxes on the imported articles shall be made in the Cons or House or branches on the clearance of the goods; and of the taxes on home manufactured articles in the office of Direct Taxes or branches.

Art. 12.—Home made alcohol sent out for exportation shall be entitled to a return of the tax paid in respect thereof, on the exporter complying with such measures of guarantee as may be prescribed by the Executive.

## EXTRACT FROM THE REGULATIONS FOR THE EXECUTION OF FOREGOING LAW, DATED JULY 14, 1900.

Art. 1.—Internal consumption taxes to be paid by importers of foreign goods, shall be chargeable from an later the 16th July instant.

Art. 2.—All clearance permits for goods subject to internal taxes and relating to operations in hand on the 14th instant, shall be available for all products landed or cleared from bond on such last-mentioned date, and the same articles shall not be subject to any further taxes.

Art. 3.—From and after the 16th instant, persons concerned will have to apply for fresh permits in respect of goods subject to internal taxes, and no goods shall be entered in such permits except those referred to in the Law and subject to these regulations have in view.

Art. 4.—From and after 1st October instant, importers must declare in the permit the alcoholic strength of the wines presented for clearance, as well as the quantity of dry extract contained therein, and they shall be subject to the responsibilities which Customs Laws and regulations render clearers liable to, when guilty of false declarations.

Art. 5.—No spirit-distilling apparatus shall be imported, manufactured or put up except on the authority of the Ministry of Finance.

Art. 6.—Importers and manufacturers of alcohol and spirits shall register their trade-marks at the proper office of the Director of Customs and direct Tax within 20 days from this date.

Art. 7.—Montevideo is declared the sole port available for clearance of foreign wines, spirits and other alcoholic drinks.

Art. 8.—The office of the Director General of Customs will calculate and enter in a separate account the internal taxes chargeable upon foreign goods, and the same must be paid at the Customs Treasury at same time as the Customs duties due on such goods.

## LAW RELATING TO CUSTOMS PRIVILEGES IN FAVOUR OF PRIMARY MATERIALS FOR USE IN INDUSTRIES.

By the Law of October 26, 1912, exemption from, or reduction of, Customs duty is granted on the following articles when imported for industrial purposes:

1.—Articles to be free of Customs duty when imported for industrial purposes:

- Borate of lime, feldspar and quartz; arsenious acid or commercial arsenic; sulphuric acid; cork bark; old iron for casting and in ingots; wood or staves, in the rough, for casks; sulphur carbon (mechas) for fumigating; metals of all kinds in lumps; printed placards issued by foreign firms with models of machinery or graphic demonstrations of the same; sand and stone ballast; grape-vine root stocks or plants, called American; raw jute; extracts of any substance; mineral, animal or vegetable, as also compounds for tanning; logwood; machines for cutlery and other domestic industries, including their accessories; crude tar or pitch; and kaolin.

2.—The undermentioned articles are to pay percentage rates of duty, as shown below:

- (a) 31 per cent.: Empty casks.
- (b) 25 per cent.: (When introduced for industrial purposes): Carbonic acid; bisulphite of soda; "verdufo" (knock-down) casks; animal carbon; formal; glycerine; oilcloth for binding books; weighing not more than 325 grammes per square metre; cellulose thread; "aropia" (a chemical substance used for tanning purposes); tinsel; filter paper, in sheets and "pasta"; salt of antimony; clarifying (clarifying earth).
- (c) 20 per cent.: Silk in skeins or other special form, for weaving; spun jute; threads in general.
- (d) 15 per cent.: Unworked tinplate, painted; iron and steel in sheets; gum (goma del pais).
- (e) 10 per cent.: Acetate of lead; lubricating oils; liquid ammonia; acetate of soda; laminated horn; betanaphthol; cocoa beans; steel cylinders for compressed gases (when imported full, they are to pay, in addition, the duty applicable to the contents); cellulose in sheets; hypophosphite of soda; nitrate of soda; resin or rosin; sulphate of soda; crystallised sulphide of soda; sulphate of alumina (alum); chloride of magnesium; tartar emetic; tartrazine; yolk of eggs.
- (f) 5 per cent.: Coal oil; coal waste or dust; cocoon, spun and unwoven; denatured sulphate of lime; cyanide of silver, pure; chloride of gold; acetate of copper; phosphate of soda; lime, exalite, and lactic acids; chrome alum; aniline, all kinds; pyrogallous acid; muriatic or hydrochloric acid; common alum; red Turkey oil; butylic and formic acids; bichromate of potash or soda; catobut; sulphate of soda; carbonate of ammonia; commercial carbonates of soda; carbonate of potash; colours for paints; hematite; fibre for curing chairs; crude carbolic acid (phenols); unworked tinplate; metal for linotypes; gold in leaves; oxide of manganese; prussiate of potash; caustic potash; caustic soda; resin for varnishes; natural rock asphalt; borate of magnesium; sulphate of iron or of copper; sulphocyanide of ammonium or of potash; potato starch; English salt (sal inglesa); chloride of lime; "tricolorato" (red); spun cotton, linen, hemp, for weaving; fluorine of calcium; erythrite in powder; nitrate of potash or of soda; oxide of lead; ercolite acid; Vienna lime; sulphate of nickel; fusing salts for metals; polishing paste for metals; straw plait for hats; steel and.

The foregoing exemptions and reductions of duty for primary materials are to remain in force so long as the collection is not solicited for national establishments known to produce such materials under conditions approved by the Executive. As soon as the materials are so produced in the country, the Executive will re-establish the duties now abrogated.

The Executive is to establish valuations for, and frame a tariff classification of, the primary materials included in the present Law.

3.—Cotton-seed oil is to pay on importation a specific duty of 15 centesimos per kilo, except in the case of crude oil.

4.—Old iron is to pay an export duty of 50 centesimos per 100 kilos, except iron from dismantled vessels, which may enjoy temporary admission and be re-exported free of duty. This provision is to come into force after six months from the date of the present Law.

The Uruguayan *Diario Oficial* of Feb. 1st, 1913, contains a Presidential Decree establishing a Variable Tariff for "Primeros Materiales" (framed in accordance with Article 9 of the Law) which is to serve as basis for the assessment of the *ad valorem* rates of duty.

Some of the more important items from this Tariff are set out in the subjoined statement:—

## PRIMARY MATERIALS.

## CUSTOMS TARIFF.

MONEY, WEIGHTS AND MEASURES. The bolivar is divided into 100 centimos. For weights and measures, Venezuela has adopted the metric system.

## PRELIMINARY DISPOSITIONS.

ART. 1. All foreign merchandise imported through the custom houses of the Republic shall pay import duties on gross weight, according to the following schedule:—

| Class 1 ..... | Bolivars per kilo. |
|---------------|--------------------|
| Class 2 ..... | 0.05               |
| Class 3 ..... | 0.10               |
| Class 4 ..... | 0.25               |
| Class 5 ..... | 0.75               |
| Class 6 ..... | 1.25               |
| Class 7 ..... | 2.50               |
| Class 8 ..... | 10.00              |
| Class 9 ..... | 20.00              |

ART. 2. The following articles shall be free of import duties: See Nos. 1-53.

ART. 3. The Executive is authorized to exempt from the rates of duty prescribed by the present law the following articles, subject to regulations to be prescribed by him:— See Nos. 34 and 35.

ART. 4. The importation of the following articles is prohibited:— See Nos. 36-41.

ART. 5. Merchandise subject to duty shall be classified as hereinafter stated. (See Nos. 42-98.)

ART. 6. In declaring articles the following rules shall be observed:—  
1. The importers shall draw up their declarations in accordance with the provisions of the present law.

2. When an article is specified in the tariff, the component material will not be considered, but only the tariff classification which has been assigned to the article.

3. For the determination of ad valorem surtaxes the consular invoice will be consulted, but the customs authorities may also follow previous declarations, in case the values stated are obviously false.

4. To determine the number (half the sum) of threads in a square of 5 mm. to the side, there shall be used a thread counter of that size; the number of threads in the warp shall be added to those in the filling and the sum divided by 2, any fraction that may result from such division being discarded.

5. In classifying the fabrics included in the present law, such plain fabrics are to be included those in which single weft yarns, running crosswise, pass alternately over and under each of the warp yarns, running lengthwise, forming right angles over the entire fabric, and in which single warp yarns, running lengthwise, pass alternately over and under each of the weft yarns, running crosswise, forming right angles over the entire fabric. In such fabrics all yarns must be of the same thickness.

Fabrics which do not meet the above requirements shall be considered as figured fabrics.

ART. 7. When goods not known in the country or not specified in the tariff are imported, the importer shall state this fact in the consular invoice, and address to the Ministry of Finance a petition verified by the customs authority and accompanied by a sample of the article to be classified.

ART. 8. For the entry through the custom houses of goods exempted from duty by reason of laws or contracts, a previous order of the Ministry of Finance shall be required in each case.

ART. 9. Articles imported knocked down, in separate packages, shall be assessed at the same rate as the complete article.

ART. 10. When common empty glass bottles are imported in cases which are to be used later to carry the same number of full bottles, the bottles and the cases shall be assessed separately at the rates prescribed for each article.

ART. 11. When trunks, travelling bags, blankets or cloth are used, without a decrease in value, as packing for imported articles subject to a lower assessment, than the containers, the contents and containers shall be assessed for duty separately.

ART. 12. Articles which are found upon examination to belong to tariff

classes subject to surtaxes, and which are declared in the same classes without surtaxes, shall be subject to the same penalties as articles found upon examination to belong to a higher tariff class than the one under which they are declared.

ART. 13. Articles subject to ad valorem surtaxes, which have been declared in the consular invoices at a value below their real value, shall be subject to the same penalties as articles found upon examination to belong to a higher tariff class than the one under which they are declared.

ART. 14. When upon examination goods are found to be of less weight or subject to a lower tariff classification than is specified in the declaration, the fact shall be stated in the report of the examination, which is to be signed not only by the inspector but also by the collector of customs and two merchants of recognized standing.

ART. 15. The Executive is authorized to increase up to 25% the import duties on goods from foreign countries which do not provide in their treaties with Venezuela for most-favored-nation treatment.

ART. 16. The Executive is authorized to increase, reduce or abolish rates of duty for sufficient reasons, and to fix rates of duty for articles not specified in this law. Account shall be given of such acts to the National Congress at the following session.

ART. 17. The rates of duty prescribed by Article 1 of the present law are subject to the legal surtaxes of 30% and 25%, both calculated on the original duties, and the resulting amount is subject to a surtax of 1% as a sanitation tax.

Both the ad valorem and the specific surtaxes specified in the present law are subject to the surtaxes stated in this article.

ART. 18. The import tariff law of July 1, 1912, and subsequent Executive decisions in the subject are hereby repealed.

Done in the Federal Legislative Palace, in Caracas, the 10th of June, 1915, the one hundred and sixth year of Independence and the fifty-seventh year of the Federation.

Imports into Venezuela are dutiable on gross weight, i.e., inclusive of the weight of the containers. In case the containers consist of articles specified in the tariff under a higher tariff classification than the contents, they are assessed for duty under their own classification.

All dutiable imports are subject to the following surtaxes:

Two surtaxes of 12 1/2 % of the duty each, authorized by the decree of April 25, 1901.

A surtax of 30 % of the duty established by the decrees of February 16, 1903, and June 4, 1912.

A surtax of 1 % based on the duty increased by the other surtaxes, imposed by the decree of December 29, 1910.

Imports from the West Indies are subject to an additional surtax of 30 % of the import duty, in accordance with the law of June 4, 1881.

In addition to the above, there are a number of surtaxes, specific or ad valorem, prescribed by the tariff for specified articles. These surtaxes do not include certain supplementary dues, such as port charges, wharfage dues, warehouse charges, stamp duties, or some of which are based on the value or weight of the shipment and others on the tonnage of the vessels.

In the case of explosives, prepared foods and pharmaceutical preparations, special restrictions are imposed in regard to importation, inspection or sale, which must be complied with.

According to the decree of June 4, 1914, the importation of explosives, with the exception of ordinary gunpowder, is subject to a permit which may be granted as a result of an application through the Ministry of the Interior. The importation and sale of dynamite has been restricted by the decree of June 27, 1913, to the National Government operating through the Department of Public Works.

Pharmaceutical preparations of a determined formula must bear labels showing the quantity of active substances contained in each dose and the names of these substances.

Adulterated and imitation food products must be plainly labelled as such, both on the immediate container and outer packing and their component substances specified. Such labels must be in Spanish, with translations into such other languages as may be desired.

[TARIFF.]

The internal tax on cigarettes provided for by the law of June 12, 1913, is 5 bolivars per kilo.

The internal revenue law of June 12, 1915, prescribes the following internal taxes for imported liquors:

Brandy and rum, 1.25 bolivars per litre; gin, bitters, anisette and the like, 1.50 bolivars per litre; and cognac, whiskey &c., 2.50 bolivars per litre. For liquors of an alcoholic strength exceeding 50° the tax is increased proportionately. The tax on imported beer is 0.30 bolivar per litre.

Shippers must present to the Venezuelan consular for certification four copies of the consular invoice, which should contain the following data: The names of the shipper and the consignee, the port of shipment, the port of destination, the kind of vessel, its name, nationality, and the name of its captain; the mark, number, kind and destination of each package, its contents, exact gross weight in kilos, and its value.

T. = Tare.

Duties shall be paid in United States money, or in foreign gold coin, such as the Spanish alphonsoinos (centen) and the French louis, which will be accepted at the following rates: Alphonsoinos (25-peseta piece), \$4.82; louis (20-franc piece), \$3.86.

The following Spanish silver coins now in circulation in the island of Cuba shall be received for customs at the following fixed rates in American money: Peco, 60 cents; medio peco, 30 cents; peseta, 12 cents; real, 6 cents; medio real, 3 cents.

Bronze and copper coins now current in the island of Cuba will be received at their face value for fractional parts of a dollar in a single payment to an amount not exceeding 50 cents (1 peseta).

The metrical system of weights and measures is in use in Cuba. Importations from the United States are dutiable like other commodities. Under the Reciprocity Treaty of 1903 between Cuba and the United States of America all merchandise produced by either country then entering the other free is to continue free of import duties. All other Cuban products imported into the United States are to enter at a reduction of 20 per cent. from the rate of duty imposed on such merchandise. All imports sent to Cuba from the United States not entitled to free duty are given a reduction of 20 per cent. of duty in addition to a greater reduction as following under Schedules A, B and C of the Treaty.

Schedule A of articles entitled to 25 per cent. reduction from the regular tariff: Machinery and apparatus of copper or its alloys or machines and apparatus in which copper or its alloys enter as the component of chief value; cast iron, wrought iron, and steel, and manufactures thereof, articles of crystal and glass, except window glass; ships and water-borne vessels of all kinds, of iron or steel; cutlery, cutlery and blades; fish, salted, pickled, smoked, or manured; fish or shell fish, preserve in oil or otherwise; wine in tin; articles of pottery or earthenware, now classified under paragraphs 21 and 22 of the Customs Tariff of the Republic of Cuba.

Schedule B of articles entitled to a 30 per cent. reduction: Butter, the flour of wheat, corn, the flour of corn or corn meal, chemical and pharmaceutical products and simple drugs, malt liquors, beer, wine, or alcoholic beverages, cider, milk, and articles of hemp, flax, pita, jute, henequen, complete or not, and other vegetable fibres now classified under the paragraphs of groups 2, class V, of the Customs Tariff of the Republic of Cuba; musical instruments, writing and print on paper, except for newspapers; cotton and manufactures thereof, except knitted goods (see schedule C); all articles of cutlery, boots, shoes, and slippers, now classified under paragraphs 197 and 198 of the Customs Tariff of the Republic of Cuba; gold jewelry, gold and silver ware, drawings, photographs, engravings, lithographs, chromo-lithographs, oleographs, &c., printed from stone, zinc, aluminium or other material used as labels, flaps, bands, wrappers for tobacco or other purposes, and all the other papers (except paper for cigarettes), not excepting maps and charts, postboard and manufactures thereof, now classified under paragraph 165 of the Customs Tariff of the Republic of Cuba; common or ordinary soaps, now classified under paragraph 105, letters "A" and "B," of the Customs Tariff of the Republic of Cuba; vegetables, pickled or preserved in any manner; all wines, except those now classified under paragraph 279 (A) of the Customs Tariff of the Republic of Cuba.

Schedule C of articles entitled to a 40 per cent. reduction: Manufactures of cotton, knitted, and all manufactures of cotton not included in the preceding schedules; cheese, fruits, preserved; paper pulp, perfumery and essences, articles of pottery and earthenware now classified under paragraph 20 of the Customs Tariff of the Republic of Cuba; porcelain soaps other than common, now classified under paragraph 105 of the Customs Tariff of the Republic of Cuba; umbrellas and

parasols, denture and glassware, watches, wool and manufactures, silk and manufactures, rice, and cattle.

It is specifically agreed that tobacco, in any form, of the United States or its in-land possessions shall not be given any concession or rebate of duty when imported into Cuba. Both countries agree that the rates of duty granted during the life of the treaty shall be preferential as respects like imports from other countries. It is specifically provided that while the like imports from other countries shall be admitted into the United States at a greater reduction than 20 per cent. from the present tariff rates, and that no sugar produced by any country other than Cuba shall be admitted into the United States by treaty or convention while the new treaty is in force at a lower rate of duty than that imposed by existing law.

Provision is made against any impairment of the effect of the treaty by means of national or local taxes or charges. The treaty contains articles by which either country may denounce it should changes in the other's tariff deprive the objecting nation of its tariff advantages, on giving six months' notice, and a new treaty likewise may be negotiated in certain events. If not denounced the treaty shall continue in effect for five years from the date it goes into effect. And if the treaty shall continue in force after the expiration of one year from the date either country serves notice of its intention to terminate the treaty.

## CUSTOMS TARIFF.

Decree of March 31, which entered into force June 15, 1900, duly amended according to order dated May 9, 1902, and the latest information to hand.

For the particulars of the Cuba-U.S.A. Reciprocal Treaty see commencement of this Tariff. (See also Law of February 27, 1903, at end of Tariff for special duties on certain goods, such as alcoholic beverages, etc.)

DISPOSITION FIRST.  
Customs Treatment of Tissues (1).

## General Rules.

1. Number of threads. By the number of threads in a tissue shall, unless otherwise stipulated, be meant one-half of all the threads comprised in the warp and weft in a square of 6 millimetres. Should this half contain a fraction, the fraction shall be counted as an entire thread.

2. Ascertainment of the number of threads. In order to determine, for customs treatment of tissues, the number of threads and the proportion in which the threads subject to the highest duty are found in the tissue, the instrument known as a "thread-counter" shall be employed.

Should there be doubt as to the ascertainment of the number of threads in a tissue owing to the tissue being closer woven in some parts than in others, the closest-woven part and the loosest-woven part shall be taken, and the average threads resulting from the two shall serve as a basis for levying duty.

When the nature of the tissue permits it, the thread shall always be counted on the obverse side of the stuff.

All woolly or melton-like tissues, and generally all tissues in which the hair has been removed by carding or fulling, the threads shall be counted on the reverse side of the stuff by rasping or burning the hair when necessary.

In exceptional cases, where after these operations the ascertainment of the number of threads remains doubtful, a sufficient part of the tissue must be untravelled.

Should this likewise be impossible, as, for instance, in case of ready-made articles, the tissue shall be submitted to the highest duty of the group to which it belongs, and should the tissue be mixed it shall be dutiable according to the class in which the highest taxed material entering into the mixture is comprised.

(3) The warp of tissues is to be considered as the totality of the threads which lie in the longitudinal sense, whether they form the foundation of the same, or whether they have been added in order to form patterns or to give the stuff more body. The weft shall be considered as the totality of the threads which cross the warp of the tissue, and combine the same conditions of helping to form patterns or to add to the body of the stuff.

## Customs treatment of mixed tissues.

3. Admixtures of two materials. Tissues of all kinds, composed of two materials, shall be dutiable as follows:

(a) Cotton tissues containing threads of hemp, jute, linen, ramie, or other vegetable fibre shall be dutiable according to the corresponding numbers of group 2, Class IV, with the surtaxes established in each case (7), provided that the number of these threads of hemp, jute, linen, ramie, or other vegetable fibres, counted in the warp and weft, does not exceed one-fifth of the total number of threads composing the tissue.

When the number of threads of hemp, jute, linen, ramie, &c., exceeds one-fifth of the total, the tissues shall be subject to the corresponding duties of Class V.

(b) Cotton tissues containing threads of wool, flock wool, hair, or wastes of these materials shall be dutiable according to the corresponding numbers of group 2, Class IV, with the surtaxes established in each case (2), provided that the number of threads of wool, flock wool, hair, or their wastes, counted in the warp and weft, does not exceed one-fifth of the total number of threads composing the tissue.

When the number of threads of wool, flock wool, hair, or their wastes exceeds one-fifth of the total, the tissues shall be subject to the corresponding duties of Class VI, as tissues mixed with wool.

(c) Cotton tissues containing threads of silk or floss silk shall be dutiable according to the corresponding numbers of group 2, Class IV, with the surtaxes established in each case (1), provided that the number of silk or floss-silk threads, counted in the warp and weft, does not exceed one-fifth of the total number of threads composing the tissue.

When the number of silk or floss-silk threads exceeds one-fifth of the total, the tissues shall be subject to the corresponding duties of Class VII.

(d) Tissues of hemp, jute, linen, ramie, or other vegetable fibres containing threads of wool, flock wool, hair, or their wastes shall be dutiable according to the corresponding numbers of group 2, Class V, with the surtaxes established in each case (1), provided that the number of these threads of wool, flock wool, hair, or their wastes, counted in the warp and weft, does not exceed one-fifth of the total number of threads composing the tissue.

When the number of threads of wool, flock wool, hair, or their wastes exceeds one-fifth of the total, the tissues shall be subject to the corresponding duties of Class VI, as tissues mixed with wool.

(e) Tissues of hemp, jute, linen, ramie, or other vegetable fibres containing threads of silk or floss-silk shall be dutiable according to the corresponding numbers of group 2, Class V, with the surtaxes established in each case (1), provided that the number of these threads of silk or floss-silk, counted in the warp and weft, does not exceed one-fifth of the total number of threads composing the tissue.

When the number of silk or floss-silk threads exceeds one-fifth of the total, the tissues shall be subject to the corresponding duties of Class VII.

(f) When the number of silk or floss-silk threads exceeds one-fifth of the total, the tissues shall be subject to the corresponding duties of Class VII.

4. Admixtures of more than two materials. Tissues composed of more than two materials shall be dutiable as follows:

When the number of silk or floss-silk threads exceeds one-fifth of the total, the tissues shall be subject to the corresponding duties of Class VII.

(a) Tissues containing an admixture of cotton and other vegetable fibres, and at the same time threads of silk or floss-silk, shall be subject to the corresponding duties of Class V, and assimilated to tissues of jute, hemp, &c., whatever be the proportion of the cotton threads; they shall, in addition, be liable to the surtax leviable on the silk or floss-silk threads (2), provided that the number of these threads, counted in warp and weft, does not exceed one-fifth of the total number of threads composing the tissue.

When the number of silk or floss-silk threads exceeds one-fifth of the total, the tissues shall be subject to the corresponding duties of Class VII.

(b) Tissues of an admixture of wool, cotton and other vegetable fibres, containing no silk threads, shall be subject to the corresponding duties of Class V, and shall, in addition, be liable to the surtax leviable on woollen threads, provided that the number of these threads, counted in warp and weft, does not exceed one-fifth of the total number of threads composing the tissue.

When the number of woollen threads exceeds one-fifth of the total, the tissues shall be subject to the corresponding duties of Class VI, as mixed woollen tissues.

5. Silk tissues.—All tissues containing silk or floss-silk threads, the number of which, counted in warp and weft, exceeds one-fifth without being more than one-half of the total number of threads composing the tissue, shall be considered as tissues mixed with silk.

When the number of silk or floss-silk threads, counted in warp and weft, exceeds one-half of the total, the tissues shall be considered and dutiable as of pure silk.

## Exceptions.

For knitted stuffs, tulle, lace, blondes, tulle for borders and ribbons, composed of an admixture, exception to the preceding rules shall be made in the following cases:

6. Knitted and netted stuffs.—All kinds of knitted stuffs and tulle, lace, blondes, and tulle of all kinds for borders, when mixed, shall be dutiable according to the corresponding numbers of the class comprising the threads of the highest taxed material, whatever be the proportion of each threads in the tissue.

Knitted stuffs of lace, blondes and tulle for borders, comprised in Class V, shall be considered as tissues mixed with silk when they contain threads of cotton or other vegetable fibres, or of wool or flock-wool, whatever be the proportion of such threads in the mixture.

Tulle less than 16 centimetres in width shall be considered as tulle for borders.

7. Ribbons.—Ribbons containing mixed with cotton and other vegetable fibres or with vegetable fibres and wool, containing no silk, shall be subject to the corresponding duties of the class comprising the highest taxed threads.

Ribbons or galloons containing silk, in whatever proportion, shall be dutiable as tissues according to the corresponding numbers of Class VII. When not exceeding 15 centimetres in width they shall be considered as mixed silk tissues, provided that they contain in any proportion threads of cotton or other vegetable fibres or of wool or flock wool.

8. Trimmings.—Trimmings shall be dutiable on the total weight, as if exclusively composed of the apparent or visible textile material.

Trimmings composed of their apparent or visible part of various textile materials shall be subject to the corresponding duties of the class comprising the highest taxed material. When the predominating component

material consists of metallic threads of any kind, the trimmings shall be dutiable according to Class VII, plus the surtax leviable on the metal.

Trimmings are distinguished from ribbons and galloons by the latter being real tissues, with warp and weft, while trimmings are plaited.

## Surtaxes.

9. Establishment of surtaxes.—The surtaxes applicable, owing to broche, embroidery, metal threads, or making up, shall always be computed on the duties leviable on the tissues by taking into account, if necessary, the increase of such duties in case of admixture.

For the collection of the total duty, the surtaxes applicable for either of the above-mentioned reasons must, when necessary, be added together.

10. Tissues, broches, or woven lace brocades with threads of any of the textile materials comprised in Classes IV., V., VI. and VII. of the tariff shall be liable to the duties leviable thereon, plus the surtaxes established in each case (1).

11. Broche or brocaded tissues are meant all tissues ornamented or having designs applied by means of the small shuttle called "espolin" or any similar process, in such manner that the threads do not occupy the entire width of the stuff, but only the space comprising the flower or pattern.

The threads serving to form the broche or brocaded design or ornaments shall not be considered by the appraisers in determining the number of threads in the tissue, nor shall such threads, whenever bleached or dyed, be subjected to the surtaxes established for bleaching or dyeing.

12. Embroidery. Tissues embroidered by hand or by machine after weaving or with application of trimmings shall be liable to the duties leviable thereon, plus the surtaxes established in every case (2) by taking into account whether the embroidery contains metal threads or not, and whether it is distinguished from patterns woven in the tissue, as the latter are destroyed by unravelling the weft of the tissue, while embroidery is independent of the warp and weft and can not be unraveled.

13. Metallic threads.—Tissues and trimmings containing metallic threads, in whatever proportion, shall be liable to the duties leviable thereon, plus the surtaxes established in every case (3).

Tissues exclusively composed of metallic threads shall be dutiable according to Class VII, plus the surtax leviable on the metal.

14. Made-up articles.—Tissues manufactured into articles of all kinds shall be liable to the duties leviable thereon, plus the surtaxes established in every case (4).

Ready-made clothing, wearing apparel of all kinds and of any style and generally, all articles made up by the tailor or tailor's shop, for their total weight, shall be liable to the duties leviable on the principal component tissue or their most visible exterior part.

For the application of the corresponding surtaxes, clothing and articles half-finished or basted shall be considered as made-up articles and clothing.

## DISPOSITION SECOND.

Rules applicable to goods not specially mentioned and to articles composed of several materials.

1. Articles not enumerated in the tariff shall, for the application of duty, be assimilated to those which they most closely resemble.

When an article presented for customs clearance is not mentioned in a number of the tariff or in the repository, and when doubts arise as to its assimilation to articles specified in the tariff, the interested party or the importer may request the customs authorities to indicate the number according to which such article is to be dutiable.

In such case the clearance shall be effected according to the number so indicated.

2. Articles which, owing to their nature or for their application, are composed of two or more materials or of different parts (5) shall, for the total weight, be taxed according to the material chiefly determining the value of the article.

In case of doubt as to which is the material chiefly determining the value of an article, such article shall be dutiable according to the most highly-taxed component material.

3. When the mixture of different materials has been made with a view of avoiding the payment of the duties of any specified number of the tariff, the duties leviable on the article subject to the highest duty shall always be collected.

## DISPOSITION THIRD.

Regulations to be applied in levying duty on packages and receptacles.—Taxes.

1. Packages and receptacles capable of again being used to contain goods or for other purposes shall be dutiable according to the corresponding number of the tariff, unless one of goods duties be on gross weight without tare, for which it is expressly provided that the weight of packages or receptacles shall, for tariff purposes be included in the weight of the goods.

2. Packages and receptacles liable to higher duties than those established for their contents shall always be dutiable according to the number of the tariff to which they belong.

3. The following articles shall pay on gross weight, including packages and receptacles:

## Included in Class I.:

Marble, Jasper, and alabaster, in the rough or cut into flat blocks, slabs or slabs, or other natural or artificial stone, unwrought and in flat blocks, slabs, or steps; earthy substances employed in industry or in the arts, cement, lime, and gypsum; mineral pitch and tar; asphaltum, bituminous, and other mineral oils of all kinds; ores; clay in coarse articles for building purposes, furnaces, &c.; also articles of fire-clay; large or small paving tiles of earthenware, cement, or stoneware, ceramic tiles, glazed roofing tiles and pipes.

## Included in Class II.:

All articles of cast iron, wrought iron or steel set forth in groups 2 and 3 of Class I, excepting those comprised in Nos. 33, 34, 41, 45, 47 (letters a and b), 48, 49, 50, 51, 52, 53, 54 (letters a, b, and c), 55 (letters a and b), 56, 57, and 58); copper shavings; copper of first fusion and old copper, brass, &c.; copper, brass, bronze, and other alloys of common metals in which copper enters, in ingots, bars, plates, pipes, railway chairs, sheets, for stoves and boiler-makers' work, partly in industry or in the arts, aluminium, dross, zinc, lead, or other metals not specially mentioned; nickel, alloys of such metals, in pipes, ingots, bars, plates, pipes or wire; filings, shavings, scrap iron or steel, and other waste of common metals; scoria.

(1) Classes IV. and V., group 2, Note II., Letter A.

(2) Ibid., Letter B.

(3) Ibid., Letter C.

(4) Classes IV. and V., group 2, Note II., Letter D.

(5) As for instance, the handle of an implement and the implement itself, the glass and frame of a mirror.

## Included in Class III.:

Oleaginous seeds, including copra or cocoanut; resins (except turpentine) and gums comprised in No. 78; extracts of liquorice, camphor, aloes, and other like vegetable juices; tan bark; opium; vegetable and animal products enumerated in Nos. 82 and 83; natural colours in powder or in lumps; natural dyes; varnishes; blacking chemical products enumerated in Nos. 91 (excepting phosphorus), 92, 93, 94, 95 and 96 (letter a); vegetable oils mentioned in No. 101; crude vegetable oils and animal fats; wax, unmanufactured, and paraffin in the mass; fertilizers; glue, albumen and gelatin; carbous for electric lighting.

## Included in Classes IV., V., VI., and VII.

Textile materials of all kinds, neither spun nor twisted.

## Included in Class VIII.:

Paper pulp.

## Included in Class IX.:

Staves: ordinary wood in beams, beams, &c.; wood, planed or dovetailed for cases and flooring; fine wood for cabinet makers, in boards, deals, trunks, or lofts; casks or shooks, and wood prepared for the manufacture of houseboards, tierces and barrels; lattice or fencing wood; charcoal, firewood, and other vegetable combustibles; cork, in the rough or in sheets; rail, vegetable hair, cane, osiers, fine straw, palm, heather, and esparto, raw.

## Included in Class X.:

Animal remains.

## Included in Class XII.:

Jerked meat ("tasajo"); oysters of all kinds and shellfish, fresh or dried; rice; wheat and other cereals; flour of all kinds; pulse, dried; pot herbs and garden pro luce, fresh; carab beans and seeds not specially mentioned; forage and bran.

## Included in Class XIII.:

Fanil-covered tarpaulins for vans; felt and tow, tarred or coated with pitch.

4. The undermentioned goods, if contained in a single package or receptacle, shall likewise be dutiable on gross weight, including weight of package or receptacle, and with no reduction for tare.

When packed in two or more receptacles, such goods shall be weighed herewith, and the following allowance shall be made for tare:

## General provision for tare.

6. All goods not enumerated in the foregoing lists or not included in the above-mentioned cases shall be dutiable on gross weight or according to the bases stipulated in the respective numbers of the tariff; all packages or receptacles containing such goods shall be dutiable on the duties set forth in the corresponding numbers of the tariff.

7. Goods dutiable on gross weight entitled or not to tare allowance shall always be taxed inclusive of the weight of all interior paper wrappers, ribbons, envelopes or packing.

8. When an article entitled to tare allowance is imported in bulk or merely fastened by means of rope or hoops, or packed in paper, straw, bags, or such like, no tare shall be deducted.

9. Goods dutiable on net weight shall pay together with the weight of the paper wrappers, ribbons, envelopes, or immediate receptacles other than the boxes or cases. Needles, pins, pens and other articles comprised in Nos. 51, 52 and 68 shall be excepted from this rule, and will be weighed together with the boxes if of cardboard.

Other boxes and cases, also boxes and cases containing other articles, shall be dutiable according to the number of the tariff to which they belong.

Goods affixed to cardboard, cards or wood shall be dutiable together with the weight of such package.

Twisted yarn of all kinds shall be dutiable together with the weight of the bobbins.

10. When in one container merchandise is imported which pay by net weight with others which pay by gross weight or by unities or by value, whether they have the same or different tares, said merchandise will pay the duties that correspond to them by net or dutiable weight, without any benefit of tare, and the exterior container will be appraised by its total weight by the paragraph corresponding to the material of which it is made.

11. Packages containing mineral waters shall be dutiable according to the following rules:

Cases containing bottles shall be dutiable according to No. 166 (letter b) on 15 per cent. of the gross weight of case and contents.

Bottles shall be dutiable according to No. 10, and for this purpose bottles containing 70 centiliters or more shall be considered as weighing 720 grams each.

For smaller bottles and for flasks, except of glass, and for other receptacles used for importing water, the weight shall be practically ascertained, and such receptacles shall be dutiable according to the numbers of the tariff in which classed.

12. Receptacles containing alcohol, brandies, liquors, and other compound spirits shall be treated as follows:

When the importation is effected in barrels or other casks, the receptacles shall be dutiable according to their corresponding paragraph on 15 per cent. of the gross weight if single, and on 20 per cent. of the gross weight if double.

When the importation is effected in bottles or flasks, packed in wooden cases or hampers, duties shall be assessed as follows:

The weight of the liquid shall be practically ascertained, as shall that of the bottles or flasks containing the same.

The practically ascertained weights of the liquid and bottles or flasks shall be added, and the result deducted from the actual gross weight of

(1) By "tochos" shall be understood rough wrought iron in a mass or prism, round iron or iron in any other form, containing dross. (Wrought iron containing dross has generally an unequal and rough surface.)

(2) The word "iron" in a mass or prism free from dross shall be comprised in No. 37, let b.

(3) In case of doubt, this iron shall be submitted to assay for determining its kind.

(4) The word bars in par. 36b should be interpreted to mean said articles without screws or rivets, or without being prepared for rivets or screws, or cut to measure. (Ruling No. 16 of July 3, 1900.)

(5) The word "bars" in par. 36b should be interpreted to mean articles in thickness employed in the manufacture of iron wire.

(6) Crucible steel is distinguished from bars and other pieces of iron or common steel by its sharp edges. The surface is very smooth, of a bluish color, darker than that of iron, and its fracture is close grained. (This steel is generally imported in round, square, octagonal, triangular or flat bars.)

(7) By hoop iron (5) shall be understood unpolished flat band or circles of less than 3 millimetres in thickness. See also footnote to No. 35.

(8) Galvanised-iron gutters, not riveted, screwed, or adorned in any way, are classified under No. 37h. (Ruling No. 14 of July 7, 1900.)

(9) By Decree of Nov. 22, 1910, the wire comprised in No. 41 a, b and c is exempted from the surtax of 30% provided that such wire is imported by manufacturers for use in industries, and that a sworn declaration to that effect is made by the importer.

(10) The word "Bars" in Par. 42 should be interpreted to mean with rivets or screws, or the same unriveted, but perforated or cut to measure, for bridges, frames, and other structures. (Ruling No. 16 of July 3, 1900.)

(11) According to decision of Feb. 18, 1904, wire of gauge includes all woven wire of 5 or more threads per inch, while that of less than 5 threads per inch is classed as netting under No. 46.

(12) This basis represents one-half of the warp and woof threads comprised in a square of one inch, i.e. of 23 millimetres.

(13) Barbed fence wire is free of duty.

(14) Compasses of iron and steel (not apparatus), and clearly for use in the arts, trades and professions, are classified under No. 47a.

(15) Iron and steel plates and scrubbing sticks (regadores) are classified under No. 47b.

## Apparatus and machines.

NOTE.—For the definition of parts of machinery the following rules must be observed:

1. A separate piece of a machine is understood to be any object which is not expressly specified by name under some heading of the tariff, and which by its shape and by the manner in which it is presented for clearance in the Custom House, may be considered as exclusively adapted to a machine and can have no other application. If it is imported completely finished it must pay under one of the headings of the tariff referring to machinery.

2. Tubes, bars, axles, screws, bolts, sheets, plates, boiler bottoms, wire and other articles expressly taxed in the tariff must pay duty accordingly, though they be destined to machinery.

3. Tools, instruments and utensils employed in the arts, agriculture and industry, cannot be considered as parts of machinery for the application of duty, and must pay according to the material of which composed.

(4) Machines and separate pieces of the same, of copper and its alloys, with parts of other materials, shall be so taxed under this heading, provided the above metals predominate in weight.

(5) It will be necessary to prove to what manufacture or to what industry spare woolen hose and filters are destined in order to be assessed according to this number.

Water-closets and parts thereof are classed in No. 226 "as apparatus" piston packing, of metal and tissue is included in this number. (See also note to No. 319c.) Flush pipes imported separately from water-closet apparatus are to be dutiable according to the component material, unless proof be furnished that same are imported solely for use in connection with water-closet apparatus, in which case, they are to be dutiable according to No. 226 as parts of water-closets.

Zinc plates with a hole in the centre only to be used for protecting steamships and not to be regarded as necessary parts of boilers, and shall be classed in No. 226 and not in No. 71f.

Boiler tubes (*tubos para calderas*) of iron or steel which are integral parts of the boiler itself, and have no other application, shall be classified under Par. 226. The "tubes" mentioned in Note 2 at the head of Group 2, "Apparatus and Machines," refer to those which are destined to machinery for connections, conduction of water, &c., but which may be used for other purposes. (*Relating No. 28 of July 21, 1900.*)

respective vessels: that they are indelibly and conspicuously stamped or marked with the name of the vessel, and furthermore that said vessels are to be engaged in the coastwise trade. In cases where such articles lack or do not combine the necessary conditions aforesaid, same shall pay at all times the duties specified in the respective paragraph of the tariff. All other articles shall be liable to the duties leviable thereon.

NOTE II.—Duties on steam vessels shall be levied on the total number of tons which may result from the official measurement, and no separate duty shall be levied on machinery which shall be considered an integral part of the vessel.

The certificate of tonnage shall temporarily serve as a basis for levying duty on vessels entering from abroad. The interested parties must present to the Customs authorities a certificate of measurement approved by the inspectors; but it is understood that the Customs authorities will not consider the clearance and payment of the duties as finally settled until this formality has been complied with and noted.

National ships lengthened in foreign dockyards must, on their return, pay duty on the additional tonnage. Vessels refitted with engines abroad shall pay a fiscal duty of 6 dollars per horse-power when it is impossible to ascertain the weight of the new machinery.

Boilers and accessories thereof, funnels, tubes &c. changed abroad shall be liable to a fiscal duty of 3 dollars per each square metre of heating surface.

Vessels undergoing other repairs in foreign ports shall, on their return, pay duty on the material employed for the purpose.

## FREE LIST

The undermentioned articles may be imported into Cuba exempt from the duties stipulated in the tariff on compliance with the prescribed conditions and the formalities established for every case in the Customs Regulations:

- 319 Manures, natural, including the cow-pen.  
320 Trees, plants and moss, in natural or fresh state.  
321 National products returning from foreign exhibitions, on presentation of the bill of lading or certificate proving their exportation from the island, and of satisfactory evidence attesting that such products have been presented and have been shipped to their point of departure.  
322 Trained animals, portable theatres, panoramas, wax figures, and other similar objects for public entertainment, imported temporarily, for not longer than three months, unless extension be granted by the collector of customs, provided no bond be given.  
323 Receptacles exported from Cuba with fruits, sugar, molasses, honey, brandy, alcohol and coconut oil, and re-imported empty, including iron drums containing condense oil.  
324 Specimens and collections of mineralogy, botany and zoology; also small models for public museums, schools, academies and scientific and artistic corporations, on proof of their destination, and archaeological and numismatical objects for public museums, academies, and scientific and artistic corporations, on proof of their destination.  
325 Used furniture of persons coming to settle in the island, provided the same has been in use for one year.  
NOTES to No. 325.—The expression "Used furniture of persons coming to settle in the island" shall be construed to include such articles of household effects and furnishings as pictures, books, pianos organs, chinaware and kitchen utensils, in quantities, and of the class, suitable to the rank and position in life of the person bringing in the property, and that they have all been in use by the said person for more than one year, and provided further that satisfactory evidence be produced that such person is actually coming to settle in the island, that the change of residence is bona fide, and that the privilege of free entry under this paragraph has never been previously granted him. (*Ruling No. 32 of Aug. 7, 1903.*)  
A carriage or buggy, the property of a bona fide immigrant coming to settle in the island, C. B., having evidence of having been used for one year, when imported together with his household furniture, may properly be admitted free of duty under the provisions of par. 325 of the Cuban Customs Tariff. (*Ruling No. 124 of March 13, 1902.*)  
326 Samples of felt, wallpaper and tissues, when they comply with the following conditions:  
a. When they do not exceed 40 centimetres in length, measured in the warp or length of the piece, even when such samples have the

entire width of the piece. The width shall, for tissues, be determined by the list, and for felts and wallpaper by the narrow border which has not passed through the press.

b. Samples not having these indications shall only be admitted free of duty when they do not exceed 40 centimetres in any dimension.  
c. In order to avoid abuse, the samples declared for free entry must have cuts at every 20 centimetres of their width, so as to render them unfit for any other purpose.

- 327 Samples of trimmings in small pieces, of no commercial value or possible application.

NOTE.—No other samples than those provided for in paragraphs 326 and 327 shall be admitted free of duty; provided that ordinary and used commercial samples, imported by bona fide commercial travellers in their baggage, after examination and identification by the custom-house, upon re-exportation within three months after the date of their importation, shall be entitled to a refund of 75% of the duties paid thereon, if upon presentation at the custom house for re-exportation said samples shall be positively recognised and identified as being those upon which duty has been paid, and provided further that the appraised value of said samples shall not exceed \$20.

- 328 Works of fine art acquired by the Government, academies, or other official corporations, and intended for museums, galleries, or art schools when due proof is given as to their destination.  
329 Gold in bars, powder or coined; also silver or bronze coins.

- 330 Wearing apparel, toilet objects and articles for personal use, and linen, books, portable tools and instruments, theatrical costumes, jewels and table services bearing evident trace of having been used, imported by travellers in their luggage in quantities proportionate to their class, profession and position.  
NOTE.—The collector of customs may exact a bond for the re-exportation of these articles when deemed necessary by him.

- 331 Stone, unworked, for paving purposes.  
NOTE.—Siliceous, clean, sharp-grained, coarse sand is classed in this number.

- 332 Ploughs, hoes, machetes, cane knives &c., exclusively used for agricultural purposes, and other exclusively agricultural implements not machinery (1).

NOTE.—In the interpretation of this paragraph, in the case of an instrument claimed to be for agricultural purposes, the classification will be determined by the use to which the implement is to be put, proved to the satisfaction of the collector of customs.

- 333 Quinine, sulphate and bisulphate of, and all alkalooids or salts of cinchona bark except quinine pills.

- 334 Hemp, fax and ramie, raw, hackled or tow.  
335 Abaca, heniquen, pita, jute and other vegetable fibres, raw, hackled or tow.

- 336 Single yarns made of jute for the manufacture of sugar bags only, to be imported by sugar-bag manufacturers only, the importer to give a bond to use the yarn exclusively for the manufacture of sugar bags.

- 337 Standard text books for the use of schools, whenever be the importer and maps and scientific instruments for the use of schools, which have been purchased by the properly constituted authorities of said schools, in quantities not exceeding the absolute requirements of such schools, conclusive evidence being furnished to the customs officers that such purchases were made prior to the importation of the articles entered, together with the certificate of the superintendent or principal of the school that the same are to be used exclusively for such institution.

- 338 Coal and coke.  
339 Mineral waters, natural.  
340 Fresh fish.

- 341 Articles of the growth, produce and manufacture of the island of Cuba exported to a foreign country and returned without having been advanced in value or improved in condition by any process of manufacture or other means, and upon which no drawback or bounty has been allowed.  
342 Bricks (common), unglazed, for building purposes.

- 343 Unpressed common pine lumber.

- 344 Beehives and beekeepers' supplies, as follows: Wooden beehives with grooves in the corners; square honey-comb boxes; small wheels for cutting honey-combs; honey extractors, of tin; extractor frames; honey knives, straight and triangular; "Navajon" apparatus for extracting new honey and making syrup for the bees; Swiss wax extractor (Rot); Swiss wax extractor in the sun (Doolittle); Swiss wax extractor in the sun (Boardman); perforated zinc for separating bees (Tucker and Root); department for queen bee and drone; honey-comb and hot-water apparatus for queen bee and drone; cold smoking apparatus (Crane); cold smoking apparatus (Clark); cold smoking apparatus (Bach and); brushes for cleaning beehives; net for closing bees; swarm catchers; vel wax protectors; globe wax protectors; boxes for shipping beehives with apartments; wire apparatus for taking out beehives; plywood boxes for honey-combs; tanks to keep syrup for bee nourishment; apparatus for protecting queen bee's cell (West); a panarus for catching queen bees and transferring them to their cells (Muller).

- (†) Parts of cultivators, harrows, ploughs, and seed planters (except when these implements are propelled by steam, electric or other unusual power) are classified under No. 342, provided said parts are well known and recognised to be exclusively designed to be used for the more usual implements, and that they be of such nature that they could be used for no other purpose. (*Ruling No. 44, Oct. 9, 1900.*)

The following shall be considered as:

- (a) Crude oil derived from schists, those obtained from first distillation, distinguishable by their density of from 901 to 921 thousandths of a degree, or from 66 to 73 of the centesimal aerometer, equal to from 24 degrees and 63 hundredths to 21 degrees and 48 hundredths Centigrade.

- (b) Crude oil of natural petroleum that imparted in the state in which found when extracted from the well, and which has undergone no operation whatever whereby the natural chemical composition is altered or modified. When gradually and continuously distilled up to a temperature of 300° C., this petroleum must leave a residuum exceeding 20% of its primitive weight.

(†) All articles coated with caoutchouc on one or both surfaces, as well as those with an interior lining of caoutchouc, are included in this number.  
(2) Stuffed or mounted birds or animals (specimens of zoology, &c.), except when the requisites of No. 324 of the free list are complied with, are dutiable under No. 315.

Mantles, or incandescent gasolene flms for Welsbach burners, are classed in No. 315.

Breast or chest protectors and masks, for base ball or fencing, are dutiable according to No. 315. Aluminium paper is classed under No. 315.  
(2) Those articles (relating to and depending matter) which are excluded from classification under No. 315 by reason of not complying with the condition that they shall have no commercial value are classed under No. 315, except where the character of the article as printed matter makes it properly classifiable under the schedule for printed matter.

Such manufactures of wood, as columns, corbels, and other parts of a knocked-down house, which cannot be properly classified under the various paragraphs of Group 1, of Class I, are classed under No. 315.

Law of September 4, 1903, relating to the Customs of the Republic and

Tariffs thereto annexed.

(Promulgated and rendered applicable on the 30th September, 1903.)

## GENERAL PROVISIONS.

1. Merchandise or products of our foreign trade and vessels used for transporting the same shall be subject to the duties set forth in the Tariffs annexed to the present Law and to those which might be provided for in special enactments.

2. Customs-houses are established in the following ports open to foreign trade, for the collection of the duties aforesaid:

Port-au-Prince, Cap-Haitien, Cayes, Gonaïves, Jacmel, Port-de-Paix, Jérémie, Petit-Goave, Saint-Marc, Marigot, Aquin, Môle-Saint-Nicolas.

Customs officers may, however, be established on such parts of the frontier as may be deemed fit.

3. No merchandise or products of our foreign trade are allowed to pass, except through the Customs-houses.

All merchandise or products of our foreign trade attempted to be passed outside the customs offices, shall be considered as contraband and seized.

4. No vessel may load or complete her cargo except in the ports open to foreign trade or at which vessels are allowed to call.

5. Sailing vessels or steamers which are at liberty to proceed to the non-open port of Port-Liberte and there to ship cargo, or complete their cargo.

In this case, they shall make their entry in the Port of Cap-Haitien, and pay the duties on their bulks and call dues before proceeding to the non-open port.

After taking on or completing cargo, said ships shall return to the port of entry in order to be properly cleared.

6. Foreign or Haitian sea-going vessels are not allowed under penalty of a fine of from 500 to 1,000 *piastres* in legal currency, to anchor along the coasts, save in case of an accident or of uncontrollable circumstances.

Any vessel caught in the act of unloading or loading goods or wares along the coast, shall be confiscated and sold by the Judicial authorities as well as the goods or wares.

7. Any attempt at or undertaking purporting to avoid the duties due to the State, shall be investigated, prosecuted and punished according to Law.

The statute of limitation shall apply on the expiration of five years. 8. Attempts or acts of smuggling under threat of arms shall be liable to the penalties laid down in Articles 326, 327 and 328 of the Penal Code.

9. Every ship used in smuggling shall be liable to a fine of from 500 to 1,000 *piastres* in legal currency and the goods or provisions shall be seized, forfeited and sold by the Judicial authorities.

This shall also be the case in regard to vessels when the value of the articles seized exceeds 1,000 *piastres* and the offenders or persons concerned in the fraud shall be sentenced to an imprisonment of from one to five years.

10. Any person abetting smuggling and having knowingly received on deposit or bought smuggled goods or wares, shall be arrested, tried and sentenced to an imprisonment of from six months to two years and to a fine of from one hundred to five hundred *piastres* in legal currency.

11. A merchant convicted of smuggling shall forfeit his license to trade.

12. The Customs-officials remain authorized to search, if necessary, persons coming ashore from sea-going or coasting vessels, and to confiscate as being smuggled, any goods found upon them.

The contraveuers shall be arrested, tried and sentenced to an imprisonment of from six months to two years and to a fine of five hundred *piastres* in legal currency.

13. The net proceeds of the sale of seized and confiscated goods or vessels shall be divided into two equal shares between the State and those who denounced the fraud or captured the vessel.

14. Proceedings against contraveuers of these provisions shall be taken by the Public Prosecutor of the District, in exercise of his special powers, before the proper Courts either on the requisition of the Customs Directors or officials, or on the requisition of the Police authorities or even *de officio*.

15. Detiable goods shall all stand as security for the duties leviable thereon.

No package may be delivered except upon production of the receipts for duty relating thereto, or on penalty of dismissal of the Customs Director and of the application of all penalties provided in the Penal Code.

16. No exemption from duty shall be granted save in cases determined by Law, or by contracts entered into with the State.

17. The State shall not be responsible for accidents arising from uncontrollable circumstances, or for damage and deterioration suffered

by the goods prior to their entry in the depôts or during the time they lie at the Customs.

It shall only be accountable in case goods disappear between the time of their entering the Customs-house and the assessment of duty.

The Customs-halls can in no case be used as depôts.

18. Sailing vessels are only allowed to take cargo for one single port in Haiti.

19. Rum, tafia, syrup, molasses, raw and clayed sugar are prohibited to be imported; they shall be forfeited and sold on account of the State; and all obscene works or objects shall likewise be confiscated and burnt.

20. The agents of steamers, and the consignees of sailing vessels are responsible for the fines incurred by the Master.

21. No import duty of any kind shall be levied on books, cards, plans of national authors, machines and accessories of all kinds suitable for industry for facilitating the working of the soil or preparation of native products.

## BILL OF LADING.

22. All goods consigned from abroad to a port in Haiti must be accompanied by a bill of lading; should a portion of the cargo be the property of the Master, the latter shall not be dispensed from this formality.

23. The bill of lading shall state:

Name of consignor.

Name and address of consignee.

Name of the Master.

Name and tonnage of the ship.

Place of departure and of destination.

It shall express the freight expenses, nature, gross weight or volume of the goods and show in the margin the marks and numbers on the packages.

24. The bill of lading shall be numbered in serial order, which is to be repeated on the consular manifest and the Consul shall open a register and enter therein the number opposite the names of consignor and consignee.

25. Each package is to clearly bear the consignee's initials, and a number.

26. The Consul shall refuse to certify any bill of lading on which more than one package is indicated under the same number.

27. The absence of the bill of lading will involve forfeiture of the goods and sale thereof by auction for the benefit of the State.

## INVOICE.

28. All goods forwarded to Haiti are required to be accompanied by an invoice.

29. This invoice will indicate the marks, countermarks and numbers on, and quantity of the packages, the detailed contents of each, the price of the goods, freight, expenses, and port of shipment. It must be a literal reproduction of the consignor's books.

In case the goods are to order, the words "to order" shall be inserted in lieu of the consignee's name.

30. Every invoice presented to the Consul's certification shall contain at foot the following declaration to be signed before a Commissioner or any other duly authorized person:

"I certify that this invoice is the faithful and true expression of the truth, that it agrees with my books in every particular; that no alteration has been made in the verbal description, in the weight, quality or quantity of the articles thereto specified."

31. The absence of the invoice will render the package liable to be sent back.

32. In case of dispute between the consignor and consignee, the invoice certified to by the Consul shall alone be accepted as evidence before the Court.

## DAMAGE.

33. Damage done to goods shall be declared by the consignee at latest within 24 hours after landing, and be ascertained by the Director of Customs, the Government Commissioner and three licensed merchants in Haiti.

The report shall be drawn up and forwarded to the Administrator of Finance, who shall order the sale. Such sale shall be by auction and take place in the presence of this official, the Government Commissioner, the Director of Customs and a Comptroller.

On the net proceeds of the sale, one-tenth shall be levied on account of Customs duty, without prejudice to the wharfage dues, visa charges and surtaxes.

34. If stolen goods or products introduced into one of the open ports of the Republic, in consequence of shipwreck, shall pay the duties if delivered for consumption. In that case the claimant is only required to deliver to the interpreter a summary declaration.

They shall pay in respect of all storage fees on *gourde* per package, in addition to wharfage, if the owner is not to re-export them.

If after six months they are not re-exported or delivered for consumption, they shall be sold by auction, as provided in Article 33.

## ASSIMILATION.—PRE-EMPTION.—AD VALOREM DUTY.

35. Goods which by their kind, quality and price can be assimilated to an article enumerated in the tariff shall pay the same duty as such article.

When the assimilation can be made with several articles, the goods shall pay the duty chargeable on the most highly taxed article.

Goods of better quality and larger size than articles of like nature shall pay a duty proportional to the latter.

For instance, for a quarter, a third, a half in excess of the above provided for, the goods shall be liable to an additional quarter, third or half.

37. Goods which are in no way identical to those specified in the tariff shall pay twenty per cent. (20%) of their cost price, irrespective of surtaxes.

In regard to such goods and all those dutiable *ad valorem*, the cost price shall be assessed on the value of the article in the place of production converted into legal currency with an additional ten per cent. (10%) for expenses.

38. When the Customs consider that the value of an article dutiable *ad valorem* has been under-rated, they shall have the power to retain it on behalf of the State, subject to forthwith paying the cost price with an additional ten per cent. (10%) or they may have it appraised.

In that case, three appraisers shall be appointed; one by the Customs, the second by the importer and the third by the two appraisers themselves.

The Customs duties shall be collected according to the appraisement. When the Customs exercise the right of preemption, they will draw up a report of that decision and the Administrator of Finance shall have the goods sold by auction within five days.

#### VISA FEE.

40. Visa fees shall be levied as follows:

I. In the Customs-house of the Republic:  
1% (one per cent.) on the full amount of the invoices of goods;  
1% (one per thousand) gold on the amount of invoices relating to coined money.

II. By *Indicia Consular, Consular Agents, or public security officers* (Justices of the Peace or Clerics):

P gold 5 (five piastres) for the manifest in each port of clearance of a ship laden or in ballast;

P gold 5 (five piastres) for the bill of health of every ship with or without cargo;

P gold 2 (two piastres) for each passport.

#### PASSENGERS' GOODS AND EFFECTS.

41. Under penalty of the goods being sent back out of the country, it will be necessary to make a declaration in regard to goods conveyed by passengers or contained in their trunks.

The interpreter shall not be entitled to require other documents beyond that declaration.

42. Effects for the exclusive use of a passenger shall be examined immediately after landing; they shall be free of all Customs duties and delivered to their owners.

The Director of Customs shall within twenty-four hours cause a list to be made of the packages containing the goods and forward it to the interpreter.

No such goods may be examined until the manifest has been delivered.

#### PAYMENT OF DUTIES.

43. The Director of Customs is required within 36 hours of any examination to have a statement of the duties drawn up. This statement to be made out on a stamped paper of *sevely en timbre*, shall include all the goods entered in the name of the importer, and show the taxes, surtaxes and fine incurred by him.

The Director of Customs, after checking the statement, shall sign it, together with the controller and examining officer, and transmit the same, accompanied by the examination permit, to the Administrator of Finance.

44. On receipt of the statement, the Administrator of Finance will have it checked and immediately order a counter examination, if the control shows irregularities. The statement shall be passed and the corresponding order to collect shall be forwarded to the Treasury service.

45. The Treasury authorities will deliver to the importer a receipt which shall be countersigned by the Administrator. On production of this receipt, the Customs shall issue a discharge and deliver the same goods.

46. Any omission or error detected in a statement will render a supplementary or refund statement necessary, and the officials and employees who have drawn up, checked and signed the same shall be liable to suspension or revocation.

47. The duties must be paid and the packages removed from the Customs-house within forty-eight hours from the examination. No examination shall be made in the case of persons who, after the expiration of that limit, may not have paid the duties.

48. Goods on which the duties shall not have been paid within fifteen days, or of examination, shall be reported by the Director of Customs to the Administrator of Finance, who will order them to be sold by auction to a sufficient amount of the duties payable and other expenses and without any other formalities than a legal notification served on the importer.

49. Every payment of duties effected without compliance with the terms of the present Chapter, shall be claimed a second time against the importer, and involve the dismissal of the officials who ordered it.

#### SPECIAL PROVISIONS.

50. Until otherwise ordered, the surtaxes on importation namely, 50%, 33 1/3%, in *gourdes* and that of 25% in gold are maintained, as well as the surtaxes of 30% and 10%, leviable under the special laws dated November 20, 1876, March 2, 1883, December 16, 1897, September 20, 1901, August 32, 1872 and October 7, 1881.

The 25% surtax is not charged on the soap duties. The Laws of June 20, 1903, and February 29, 1904, authorising the exportation of broken and residue coffee shall continue to be in force.

The Superior Administration reserves the exclusive right to publish the present Law and the decrees thereunto annexed.

51. The present Law repeals all laws and provisions of law inconsistent therewith. It shall be enforced at the instance of the Secretary of State for Finance and Commerce.

Note.—The Law of Aug. 20, 1900, authorizes the Government to levy a further surtax of 15% on the aggregate import duties.

For convention with Germany and U.S.A. see end of tariff.

(1) As translated from the Spanish by the office of the General Receiver of Dominican Customs.

these, and at the same time threads of silk, floss, or waste silk, or artificial silk, shall be dutiable according to the corresponding paragraphs of Schedule *E*, whatever be the proportion of the threads of cotton or other vegetable fibres, with a surtax of 60 % of the duties otherwise applicable thereto under said Schedule *F*. Provided, that the numbers of threads of silk, floss, or waste silk, or artificial silk, counted in the warp and weft, does not exceed one-fifth of the total number of threads composing the textile.

When the number of threads of silk, floss, or waste silk, or artificial silk, exceeds one-fifth of the total, the textile shall be subject to the corresponding duties of Schedule *G*.

(b) Textiles having an admixture of cotton and other vegetable fibres, and at the same time threads of silk, floss, or waste silk, or artificial silk, shall be dutiable according to the corresponding paragraphs of Schedule *E*, whatever be the proportion of the cotton threads, with a surtax of 80 % of the duties otherwise applicable thereto under said Schedule *E*. Provided, that the number of threads of silk, floss, or waste silk, or artificial silk, counted in the warp and weft, does not exceed one-fifth of the total number of threads composing the textile.

When the number of threads of silk, floss, or waste silk, or artificial silk, exceeds one-fifth of the total, the textile shall be subject to the corresponding duties of Schedule *G*.

(c) Textiles having an admixture of wool, flock wool, hair or wastes of these materials, and cotton and other vegetable fibres, but containing no threads of silk, floss, or waste silk, or artificial silk, shall be dutiable according to the corresponding paragraphs of Schedule *E*, whatever be the proportion of the cotton threads, with a surtax of 40 % of the duties otherwise applicable thereto under said Schedule *E*.

Provided, that the number of threads of wool, flock wool, hair, or wastes of these materials, counted in the warp and weft, does not exceed one-fifth of the total number of threads composing the textile.

When the number of threads of wool, flock wool, hair, or wastes of these materials, exceeds one-fifth of the total, the textile shall be subject to the corresponding duties of Schedule *F*.

(d) Made up articles having in their woven structure a twixture of two or more materials, shall be dutiable according to the duties of the schedule comprising the most highly taxed component threads, whatever be the proportion of such threads in the woven structure of such articles.

Rule 4.—For the application of the rules of this tariff, the most highly taxed threads are those classified under schedule *G*, the next lowest those classified under Schedules *F*, *E* and *D*, in the order mentioned.

Rule 5.—For the purpose of determining the classification of a textile or article, when the threads or yarns used in the manufacture thereof are spun or made up of more than one material, that causing the highest duty shall be considered as such thread or yarn, and shall be taken as though composed entirely of the most highly taxed material.

Rule 6.—Surtaxes or changes of schedule classification of textiles shall not apply or result on account of dyed or printed yarn or yarns or materials distinct from the body of the textile that may be introduced into selvages; nor shall surtaxes or changes of schedule classification apply or result on account of printing of trade names or marks on textiles. No reduction in duty shall be conceded for the weight or area occupied by selvages in determining classification of textiles.

Rule 7.—Metallic threads introduced into any textile or article shall be considered as such for all purposes of this tariff, provided that they are not exempted from this rule by express provision in another part of the tariff.

Rule 8.—All kinds of knitted and netted stitches, tulle, laces and blondes, when mixed, in the piece, or in made up articles, shall be dutiable according to the corresponding numbers of the schedule comprising the textile most highly taxed, whatever be the proportion of the threads in the fabric.

Rule 9.—Textiles such as plushes, velvets and velveteens in the piece, or in made up articles, mixed, shall be dutiable according to the paragraphs of the schedule comprising threads of the material most highly taxed, whatever be the proportion of such threads.

Rule 10.—Ribbons, braids, bands or tape (elastic or not), galloons, and generally trimmings of various kinds, when mixed, made up or not, shall be dutiable according to the corresponding numbers of the Schedule comprising the textile most highly taxed, whatever be the proportion of its threads.

Rule 11.—Textiles embroidered by hand or machine (except Swiss embroidery and insertions), or with drawn or appliqué work, or with application of trimmings, shall be liable to the duties leviable thereon, plus a surtax of 50 %.

Rule 12.—Should the embroidery contain threads, pearls or spangles of metal (except gold), or glass, the surtax should be increased to 70 %; and should pearls or spangles of gold, the surtax shall be increased to 150 %, and in addition thereon 20 % ad valorem.

Rule 13.—Whenever made up articles are referred to specifically in this tariff, the term shall be held to include articles, whether made up or finished, half finished, cut to size, hemmed, or only basted, as well as textiles in the piece so designed or marked as to indicate their ultimate use.

Rule 14.—Ready-made clothing, wearing apparel of all kinds, and generally all articles made up by the seamstress or tailor, shall be liable to the duties leviable thereon as though entirely manufactured of the principal component material or as though entirely manufactured of the material forming the most visible exterior part of the garment, under the application of this rule by more specific descriptions elsewhere in this tariff. For example: a cotton muslin skirt, covered or principally manufactured with lace would be dutiable as made up article or manufactured of lace.

Rule 15.—*Plain woven textiles*.—Textiles in the weaving of which the threads or yarns (of one end) of the weft are carried alternately over and under each warp thread forming right angles throughout the piece and in which the threads or yarns (of one end) of the warp are carried alternately over and under each weft thread forming right angles throughout the piece, shall be considered as plain woven.

When the weaving does not correspond to the process hereinbefore described, the textile shall not be considered plain woven for the purpose of this tariff.

Rule 16.—Embroidery shall be distinguished from patterns woven in the piece in that the latter are destroyed by unraveling the weft of the textile, whereas embroidery being independent of the warp and weft is not destroyed by unraveling the weft.

Rule 17.—Appliqué work shall be considered as the superimposing in the form of designs of another material or of the same material, on textiles or made up articles, by sewing, pasting or other process.

Threads of drawn work shall be considered as the binding or cutting of threads after weaving in such a manner as to leave interstices in parts of a textile or article, filled at the time of weaving by threads of the warp or weft.

Rule 18.—Trimming shall be considered as the application to a textile or article for purposes of decoration, embellishment or adornment, of ribbons, laces, braids, galloons, pieces of textiles or other materials, pieces or bands of cloth or glass, buttons, paste, wool, ivory, coral, or other material, buttons and buckles in places where not required for fastening, as well as buttons, buckles or fasteners of an unusually ornate design.

Rule 19.—Whenever the areas or measurements are mentioned as a limit or guide for the classification of textiles or other manufactures, they shall be ascertained by measurement of the greatest length and widest breadth of the textile or article concerned whether rectangular or not, including frills or scrolls, and the proportions of the same, unless exempted from operation of this rule by a paragraph of this tariff.

Rule 21.—In determining for the purpose of classification, the weight of any textile per 100 square metres, the calculation should be based upon a sufficient area of the textile itself, exclusive of boards, paper, labels, tags, strings, tickets, embroidery, trimming, or any other thing, object, or material, except bleaching, sizing, printing, dyeing, staining, ironing, embossing or meringeing, added or performed after the textile has left the loom.

Rule 22.—Surtaxes applicable to textiles classified under Schedules *F* and *D* shall be based on the rate provided per square metre, and shall not be applied on the rate by weight that forms a part of the compound duties applicable to said textiles.

Rule 23.—Whenever in the matter of provisional *ad valorem* rates, in cases of surtaxes, reference is had to a numbered paragraph of the tariff, said reference shall be to the numbered article, and in the case of articles lettered sub-divisions, unless exempted from the operation of this rule by a paragraph of this tariff, the percentage of increase for each surtax shall be calculated on the original duties, or compound duties.

Rule 25.—Articles and manufactures not enumerated, manufactured of two or more parts or materials, shall be dutiable at the highest rate applicable to any one of the parts or materials, or to the compound material of which they are composed, unless such articles be provided for by one material combined, coated, covered, elaborated or improved with another material, in which case the rate applicable to the latter shall apply.

Whenever reference is made to "component material of chief value," "principal material," or "chief value," by these terms shall be held to mean the material of the article or manufacture which exceeds that of any other component material of the article or manufacture.

The value of each component material shall be determined by the ascertained value of such material in its condition as found in the article or manufacture.

Rule 26.—In classifying an article not provided for in this tariff its commercial designation shall govern.

Rule 27.—Imported articles not enumerated in this Act which are similar to any article herein *enumerated* shall pay the same rate of duty which is leviable on the enumerated article which they most resemble in the particulars and in the order following: First, in material; second, in quality; third, in texture; fourth, in the use to which they may be applied. If any *unenumerated* article equally resembles two or more *enumerated* articles on which different rates of duty are chargeable, or if the possession of any or all of the aforementioned qualities or uses assigned to an *enumerated* article with equal force to two or more *enumerated* articles on which different rates of duty are chargeable, there shall be levied on such non-*enumerated* article the same rate of duty as is chargeable on the article which it resembles, paying the highest rate of duty.

Rule 28.—If two or more rates of duty shall be applicable to any imported article or manufacture, it shall pay the lightest of such rates.

Rule 29.—No duty shall be collected on exterior coverings containing articles dutiable on net weight, by duties or free of duty, in general commercial use, when imported, except wall receptacles, such as receptacles, containing any of the above, which are in the form of receptacles of merchandise (exterior or interior), if they shall be of material or form designed to evade duties, or for use other than common packing, or of unusual form, shall be subject to duty as articles or manufactures under paragraphs of the tariff to which they correspond by classification. Interior receptacles containing merchandise paying duty on the net weight shall in no case be exempted from the payment of duties.

Cases of jewellery, used as immediate containers therefor, shall be dutiable under their respective paragraphs.

Rule 30.—Whenever merchandise shall be dutiable upon the gross weight, the dutiable weight of such merchandise shall include the weight of all covers, receptacles, wrappers, packages and packing of every description, whether exterior, interior or immediate, without any allowance for tare.

Rule 31.—In all instances where merchandise shall be dutiable upon net weight, the dutiable weight of such merchandise shall not include any common exterior cover, receptacle, package, wrapper, or packing, but shall include all interior or immediate receptacles, including cards and containers, not subject to a higher rate of duty. Loose straw, slavings, excelsior, paper, sawdust, or other similar materials interposed between the exterior receptacle and the immediate container of the merchandise, to steady and protect the same, shall not be considered part of the immediate container.

Rule 32.—When in a single receptacle are imported goods dutiable by net weight, by duties, by absolute *ad valorem* or free of duty, together with others dutiable by gross weight, the former shall be assessed by their net weight, as defined in rule numbered 31, and the latter, by their absolute *ad valorem*, or shall be free of duty, and the latter shall be dutiable on the net weight as defined in Rule 31 with an addition to such net weight equal to 25 % thereof.

Rule 33.—All the provisions of Rules 29, 31 and 32 regarding gross and net weight shall be applicable to goods subject to compound duties when the gross or net weight forms part of the compound duty.

Rule 34.—*Materials*.—When in this tariff no modification to the contrary is made in a paragraph thereof, it shall be understood that each paragraph refers only, relative to material, to that designated in the group in which it is included and, in the absence of grouping, to that designated in the Schedule in which included, without reference to other groups or Schedules in which other materials are designated.

Section IV.—Customs duties shall be paid in accordance with the law.

Section V.—The value of merchandise dutiable or conditionally dutiable *ad valorem* shall be considered the wholesale value of such merchandise in the principal markets of the country whence exported, in the condition packed and ready for shipment, inclusive of all charges except ocean freight, insurance, export duties and buyer's commission.

Section VI.—*Ad valorem* rates of duty or percentages shall not be collected on a sum less than the invoiced or declared dutiable value of imported merchandise.

Section VII.—All import entries shall be accompanied by a Consular invoice, setting forth in detail the marks, numbers and gross weights of packages, together with the true value and net weights, dutiable quantities and dimensions, of each one of the articles or effects contained in said packages, in accordance with the prescriptions of this tariff. Four copies of the Consular Certification of Manifests and Invoices.

For the certification of each set of four copies of the manifest (*ahorro de carga*) of a vessel:

|                           |               |

| "     | And for each 1,000 in excess of 4,000..... | 1 00 |

Note.—When the result is a fraction, the fee charged will be 50 % more than that chargeable for the four copies.

Section VIII.—The importation of the following articles is prohibited, and all such articles shall be confiscated and destroyed if the intro-duction thereof is attempted:—

1. Books, pamphlets or other printed matter, paintings or illustrations, figures or other objects of an obscene or indecent character.
2. Counterfeit coins, paper money or currency, of any country, together with the dies or plates for making or printing the same.
3. Daggers, poniards, rapiers, canes or fans with blades or guns.
4. Roulette wheels, gambling layouts, dealing boxes and all other machines, apparatus, or mechanical devices used in gambling or used in the distribution of money, claims or articles, when such distribution is dependent upon lot or chance.
5. Implements and munitions of war, when not imported for or by the Government.
6. "Gas" or petroleum of less than 150°, when not imported for or by the Government, or the Municipality.

Section IX.—The rates of duties to be collected on articles, manufactures, goods and merchandise imported into the Dominican Republic shall be as follows (1):—

## SCHEDULE E.

## RULES.

When the textiles or articles to which this Schedule refers contain admixture, they shall be classified according to the following rules, unless exempt from the operation thereof by special provisions in some paragraph of this tariff.

I.—Textiles of flax, hemp or other vegetable fibres, containing threads of wool, flock wool, hair or wastes of these, shall be liable to a surtax of 40 %: *Provided*, That the number of threads of wool, flock wool, hair, or wastes of these, counted in the warp and weft, does not exceed one-fifth of the total number of threads composing the textile.

When the number of threads of wool, flock wool, hair, or wastes of these, exceeds one-fifth of the total, the textile shall be classified according to the corresponding paragraph of Schedule F.

Made up articles, having in their woven structure threads of wool, flock wool, hair or wastes of these, in any proportion, shall be classified according to Schedule F.

II.—Textiles of flax, hemp or other vegetable fibres, containing threads of silk, floss or waste silk, or artificial silk, shall be liable to a surtax of 80 %: *Provided*, That the number of threads of silk, floss or waste silk, or artificial silk, counted in the warp and weft, does not exceed one-fifth of the total number of threads composing the textile.

When the number of threads of silk, floss or waste silk, or artificial silk, exceeds one-fifth of the total, the textile shall be classified according to the corresponding paragraph of Schedule G.

Made up articles having in their woven structure threads of silk, floss or waste silk, or artificial silk, in any proportion, shall be classified according to Schedule G.

III.—Textiles of cotton containing an admixture of flax, hemp or other vegetable fibres, and at the same time threads of silk, floss or waste silk, or artificial silk, shall be dutiable according to the corresponding paragraphs of Schedule E, with a surtax of 40 %: *Provided*, That the number of threads of silk, floss or waste silk, or artificial silk, counted in the warp and weft, does not exceed one-fifth of the total number of threads composing the textile.

When the number of threads of silk, floss or waste silk, or artificial silk, exceeds one-fifth of the total, the textile shall be classified according to the corresponding paragraph of Schedule G.

## LITHUANIA

## CUSTOMS REGULATIONS.

The Tariff Regulations which are in present in Lithuania, together with a list of goods the importation of which into Lithuania is prohibited.

The Regulations provide for the duty-free admission of certain goods, including various foodstuffs, ores, etc., all other goods being subject to import duty levied on an *ad valorem* basis.

In principle no duty is levied on exports, but temporary duties have been imposed on certain classes of goods. A special licence must be obtained by the exporter from the Ministry of Commerce and Industry.

## IMPORT DUTIES.

The following articles are exempt from Import Duty.

Berries.  
Bulbs and roots, potatoes, live plants: seeds of all kinds.  
Rice.  
Fertilisers of various kinds.

Fish, raw, salted and smoked, except canned fish; crayfish, oysters, lobsters and the like, except the canned varieties.  
Grain, all kinds, whole, unt milled; rice.

Game of all kinds.

Hides, raw.

Hay and straw.

Lard and animal fats.

Metal and mineral ores.

Meats, raw, corned, dried and smoked, and other meat products, except tinned meats.

Milk.

Oils, vegetable, edible.

Rubber, unprepared.

Salt, common.

Stationery and printed matter: pictures and free-hand drawings, without frames (except office books); picture prints.

Stones, common, unfinished.

ART. 2.—All articles enumerated in the present Tariff, imported by merchants established in the Commune under their own brand and without any countermark showing that they have been despatched from one of the Communes, or which even when so marked with such a countermark are intended for consumption in the Commune, shall be liable to the payment of the corresponding surtax.

Paragraph.—The present Tariff cancels the existing Tariff of the same kind and became operative on the 1st January, 1911.

## IMPORT DUTIES—continued.

Vegetables, including raw mushrooms.  
Wooden wares.

*The following goods are dutiable at the rate of 5 per cent. ad valorem.*

Berries, dried; fruits, dried; nuts and almonds.

# Kelly's Directory of the Merchants, Manufacturers and Shippers of the World

Being a Guide to the Export, Import and Manufacturing Industries. This work contains lists of the IMPORTERS, EXPORTERS, BANKERS, CHAMBERS OF COMMERCE, MERCHANTS and MANUFACTURERS of the UNITED KINGDOM and of the Commercial World

The Directory is in Two Divisions: (1) Foreign Countries and their Dependencies; and (2) England, Scotland, Ireland and Wales, Dominions Beyond the Seas and Possessions.

(1) The Foreign Division embraces the various Foreign Countries and their Colonies to which British Manufactures are exported. They are arranged under the following heads: Europe (Continental); the United States of America; America (Central and South); Asia and Africa. With each country will be found a concise statistical account of its imports and exports, its ports and principal towns, with classified lists of the Consuls, Bankers, Merchants (Importers and Exporters), Commission Merchants, Brokers and Shipping Agents, and Buyers of British Goods, or Manufacturers of those exported.

(2) The British Division which forms the Second Division of the Work, embraces the Names and Addresses of Merchants and actual Manufacturers in the United Kingdom arranged in alphabetical order and classified according to Trades, and in the British Dominions and Possessions throughout the World. Classified trade lists are also given of the Merchants and Shippers exporting British Goods, and of the Importers of Colonial and Foreign Goods into the United Kingdom.

All Trade Headings are given in English and French and in the Commercial language of the country to which the information refers, so that the Directory can be readily used by the people of any country—the more so owing to the full indices given in the four principal languages of the World (Russian being now included).
